To Whom it May Concern,

I am writing on behalf of Teresa Romero who is an excellent teacher. I am a special education teacher. I had the good fortune to work with her at Pathways Charter School from December 2002 until June 2005. She worked as a Math teacher as well as a General Education teacher with some of the same students I worked with. My Special Education students were fortunate to have such a caring and skilled teacher.

Teresa is aware of the multiple levels of teaching and can find a way to meet the most frustrated math student as well as the gifted students. She understands her subject and can give students tricks and special ways to do various math problems.

Teresa is fantastic at working with other adults to find the best ways to help a student. Her flexibility and cooperative nature as well as her insights into each student makes her ideal to work with as a colleague.

I highly recommend Teresa Romero as a teacher and tutor. She has the following capabilities that are important for an effective teacher: openness, resourcefulness, determination, compassion, and keen intelligence.

Sincerely,

A handwritten signature in brown ink that reads "Meredith Caplan LH".
